

Job Offer

1 Head of Analytical R&D Team

ABOUT DEINOVE

DEINOVE (Euronext Growth Paris: ALDEI) is a biotech company, based in Montpellier (South of France), that seeks to develop new technological standards and innovative compounds to meet the planet's social and economic challenges : the fight against antibiotic resistance by the discovery of natural compounds with antimicrobial activities.

Position:

At Deinove we embrace our mission of developing and providing innovative solutions and medicines for patients.

You have the opportunity to be a part of it as Head of Analytical Team. You'll report to our CSO :

Key responsibilities:

- Propose and organize strategies for analytical activities to ensure that project development timelines are in place and aligned with the project's overall objectives,
- Develop and optimize analytical chemistry methods in order to identify and quantify target compounds,
- Expert in HPLC and LCMS,
- Lead sub-contractors in your area, in particular NMR and other specific analyses,
- Maintain and improve laboratory equipment, including calibration scheduling, acquisition and basic maintenance programs,
- Work in close collaboration with project and platform managers,
- Recruit, lead, coach, develop and motivate the team to ensure delivery of the required standards of performance.

Required Qualifications and skills

- Ph.D. in chemistry / biochemistry
- 5 years' experience in analytical field
- Experience in natural product chemistry is mandatory
- Experience in pharmaceuticals would be appreciated
- Passionate about your work and science
- Ability to manage and deliver on multiple objectives under aggressive timelines
- Fluent in English and French
- Team spirit
